

A Report on The Las Vegas Housing Authority
Marble Manor Resident Council
By
Ex-secretary Mr. Jerry M. Neal
Wednesday, October 05, 2005

To: The Las Vegas City Councilmen and Woman
And those that care.

Subject: A request for help.

I will not steal nor rob you of your precious time about the pain and neglect my fellow housing authority residents are suffering because of the Las Vegas Housing Authority heart of steel.

Understanding, that each of you and the Mayor; are our legal protectors and appointer of the "Las Vegas Housing Authority Board Members. A Board that has taken an oath to protect the federal funds and the people in public housing; people and federal funding that God has given to them to care for. This has not been according to law and order; or a blessing to HUD. As we all know about the 3.9 millions and other violations that have pledged the City of Las Vegas, Nevada and its residents, due to misconduct. It's time for a change and those that need to do right need to get busy protecting those of us living in public housing. You are our guardians and you have the power to just say the word/s, and it is done.

It is my motion and request to each of you; that you work with me to create and institute what the Federal Government has already put in plan and allocated funds for. Please do not let the Housing Authority continue with picking Judas to heal the evil of poverty.

Some of the residents living in public housing need those funds; to restrain their actions from committing crime on other citizen. I remember my Granddaddy telling me of two men and a potato. A man with a potato can have morals; but a man with no potato can only think of getting one.

As a member of those residents and a family protector of the residents of Las Vegas, Nevada; I am placing this request before each of you; in prayer that your concern to right the wrong and help me give our voters a real Resident Council; a Resident Council to be proud of. One that shall help and assist in bring about a real positive productive standard when it comes to a positive way of life and living conditions in the current lives that are living in public housing. Let it be known when they see your face it shall bring a smile of joy. And

Submitted at Redevelopment Agency

some piece of mind; knowing that you are.... Also...fighting....for them too. It is my utmost desire that you create some redress when your Resident Councils are continually being denied and treated as if they are terrorists. We, the public housing residents need assistance in finding justice in the name of HUD and the City of Las Vegas, Nevada. We trust you are that care governor.
