

REPETITIVE TRACT HOUSING PLOT PLAN REVISIONS

FOR PERMITS THAT HAVE BEEN ISSUED:

1. Submit one (1) new application/plot plan for each lot.
2. Indicate on the application that it is a revised plot plan and add the permit number.
3. Submit to Planning for signature.

FOR PERMITS THAT HAVE NOT BEEN ISSUED, BUT APPLICATIONS AND PLOT PLANS HAVE BEEN SUBMITTED:

1. Planning needs to stamp and sign new application/plot plan.
2. Give to Permits so the new application/plot plan can be processed with other permits.

This procedure is for REVISED PLOT PLANS (changing footprint only) and not to be used for Model Changes.

Land Development does not require a new signature unless the elevation has been changed.
